Caden Bosch is on a ship headed for the deepest point on earth: Challenger Deep in the Marianas Trench. He is designated the ship's artist in residence, to document the journey with images. He is split between his allegiance to the captain and the allure of mutiny.

Caden Bosch is a brilliant high school student whose friends and family are starting to notice his odd behavior. He pretends to join the school track team but spends his days walking for miles, absorbed by the images in his head.

We experience the world through Caden's perspective, which has two narratives: one that is "real" and one that is his delusions, but the two begin to overlap and merge in many ways.
